Subject: RE: Rate Schedules

David,

On Friday, December 22, 2017, Daufuskie Island Utility Company, ("DIUC") sent an e-mail to ORS, the Property Owner's Association, and the Commission that contained an attachment outlining schedules purporting to demonstrate the rate design outlined by

the Commission's Directive ("Directive"), which was issued December 20, 2017. According to the Directive, the Commission was to issue a full written Order at a subsequent time in which all adjustments and rate matters were explained, and the Company will design and file rates that produce the revenue increase granted in the Commission's Order. Furthermore, the Commission's Directive required that the DIUC designed rate schedule should be shared with other parties in this case and those parties should verify that said rates are consistent with provisions of the Commission's Order.

Because the Commission has not yet issued its Order, ORS cannot adequately assess DIUC's proposed rate design to ensure that it complies with all Commission requirements. Once the Commission issues its Order, the ORS audit staff will analyze DIUC's rate schedule and the Utility Rates department will run the rate design, each to ensure that DIUC's rate schedule incorporates all adjustments ordered by the Commission.

If ORS finds any discrepancies between the rates as ordered by the Commission and DIUC's rate schedule, ORS will notify the Commission of the differences.

Thank you,

Andrew
